## CivilCAD 10.2 Installation Guide

This installation guide was written following the release of the new version of CivilCAD 10 - CivilCAD version 10.2. They are also a previous user of the software, and you are upgrading from CivilCAD 10 to CivilCAD 10.2, it is important that you follow the steps listed below.

(This document is written in both male and female language)

### **To install your new software, follow these steps:**

- The software must be closed before following these steps

(If you are installing software for the first time and you do not have CivilCAD 10 software on your computer, please skip to step C).

Please note that the instructions should be carefully read and carefully followed. This will prevent installation problems and ensure proper operation of the software

### **Step A - Keeping the Software License (Local License Only)**

In the process of Install the software, installing will overwrite the existing software license on your computer - To avoid this situation, do the following:

1. Enter: This PC -> \: c \ program data \ sivan design \ CivilCAD10
2. File the CivilCAD10.lic file and transfer it to DESKTOP Ctrl + c-> desktop-> Ctrl V + \* Later.

<input type="checkbox"/> CivilCAD 10.lic	08-Jan-20 5:10 PM	LIC File	71 KB
--	-------------------	----------	-------

after installing the software- we will return the license file to the required location (section 25 below)

### **Step B - Uninstall an existing version**

1. If you have a previous CivilCAD software on your computer, you must uninstall, click Start-> Control Panel-> Add or remove programs
2. CivilCAD must be uninstalled by clicking Uninstall-> Uninstall
3. Delete the CivilCAD folder located in C: \ Program Data \ Sivan design \ CivilCAD10

4. Delete an icon from the desktop - if the software icon has not been removed, delete -> Delete if a window appears, click Continue

### **Step C - Install CivilCAD10.2**

5. Please download the software installation file from the link:

<https://sivandesign.com/downloads/>

Click the Download button (in yellow) under the heading “CivilCAD 10.2 Setup”
